PV Report:

Ah, a mostly sunny month. We generated 474 kWrs of electricity from our PV panels which is a new monthly record! The array, now into its 19th year, continues to work flawlessly.

Plugin Prius Report:

As for my Plugin Prius, it celebrated its first birthday in August. My yearly average is 137 mpg and the mileage on my current tank of gas is 374! So far, my tank registers slightly more than half full, having traveled 1,258.9 miles since my last fillup

! I'll likely have to add more gas before the snow flies (!)

Gardening:

When it is difficult to find fresh tomatoes, and you have made this effort, it is hard to
find any other place to go to get tomatoes that are as good as the ones you have
